## DELIVERING "JAPANESE QUALITY: MADE BY FUJITEC" THROUGH GLOBAL OPERATIONS IN OVER 20 COUNTRIES, ACROSS 6 REGIONS

Fujitec is one of the first companies in the Japanese elevator and escalator industry to venture overseas, establishing Fujitec (HK) Co., Ltd. in 1964 and Fujitec Singapore Corporation Ltd in 1972. Since then, we have pro-actively promoted global businesses which encompass six Research & Development centres and 11 manufacturing bases in over 20 countries, across six regions. Each base is connected by our sales order management system and global design division to establish a global supply chain network.
